

## 2011 National Judge

**Lucy Chang**  
International Garden/Flora Tour Guide  
Edmonton, AB

A Librarian by training with many years as Head of the Government of Alberta's Environmental Protection Library, Lucy is currently an international garden/flora tour guide with Eagle-Eye Tours. Between tours, she maintains her green thumb as a seasonal greenhouse assistant at Arch Greenhouses and potters about in her own garden.

It was while studying for her Master Gardener's Certificate in 2004 that Lucy was recruited into the Communities in Bloom program and she has been a provincial and national judge for Communities in Bloom since then.

Widely traveled, Lucy has given horticultural talks and workshops to various societies and related groups. She was elected President of the Edmonton Horticultural Society (EHS) in its centennial year, 2009, a position she relinquished in 2010 to continue with travel commitments. Lucy still sits on the EHS Board of Directors and leads the EHS City Gardeners in beautification projects. Active participation in various other plant related organizations, e.g. Alberta Native Plant Council and Edmonton Naturalization Group, keeps Lucy in the forefront of our changing natural world.
